DETAILED ACTION

Response to Amendment

This office action is in response to the amendment filed on March 8, 2004 (Paper No. 9). The amendment filed on March 8, 2004 has been entered and made of record. The original application contained *claims 1-25*. In the amendment filed on March 8, 2004, the Applicants amended *claims 1 and 13*. There are *no claims* allowed. Hence, *claims 1-25* are presented for further consideration and examination.

Response to Argument

 The Applicants' arguments with respect to claims 1-25 have been considered but are moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 102

- 3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
 - A person shall be entitled to a patent unless -
 - (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. <u>Claims 1-25</u> are rejected under 35 U.S.C. 102(e) as being anticipated by Brown et al. (US006405192B1).
- 5. With regard to claims 1, 13, 22 and 25, Brown reference discloses,

Art Unit: 2143

fetching a current web page, the current web page including one or more links,
each link pointing to a web page; (Brown, col.2, lines 15-17; col.6, line 20; col.6,
line 66 – col.7, line 2; module 610, fig.6; module 720, fig.7A; Brown teaches of
retrieving a web page which is well known in the art to include links pointing to
other web pages)

- fetching information regarding the web page to which each link points, wherein
 the information is stored separately from the current web page; (Brown, col.2,
 lines 15-17; col.6, lines 21-27; Brown teaches of parsing the retrieved web page
 for a set of links to other web pages and retrieving those web pages from their
 respective locations)
- displaying the current web page; and, (Brown, col.2, lines 15-17; col.6, line 20; col.6, line 66 col.7, line 2; module 610, fig.6; module 720, fig.7A; Brown teaches of retrieving a web page, which is well known in the art to include links pointing to other web pages, and presenting it to the user)
- displaying an informational region, in response to a cursor hovering over a
 particular link of the one or more links, the region including the information
 previously fetched regarding the web page to which the link points. (Brown, col.9,
 lines 46-59; Brown suggests of opening another window (pop-up) and displaying
 the desired information within the new window to the user as the pointer passes
 over a link)
- 6. With regard to <u>claims 2-4, 14 and 23</u>, Brown reference discloses,
 - wherein displaying the informational region comprises displaying the
 informational region by the link. (Brown, col.9, lines 46-59; Brown suggests of

Art Unit: 2143

opening another window (pop-up) and displaying the desired information within the new window to the user as the pointer passes over a link)

- wherein the method is such that a user is able to retrieve the information
 regarding the web page without selecting the link and committing to downloading
 the web page. (Brown, col.9, lines 46-59; Brown suggests of opening another
 window (pop-up) and displaying the desired information within the new window to
 the user as the pointer passes over a link)
- wherein the informational region comprises a text box apparently floating near
 the link. (Brown, col.9, lines 46-59; Brown suggests of opening another window
 (pop-up) and displaying the desired information within the new window to the
 user as the pointer passes over a link)
- 7. With regard to *claims 5-12*, Brown reference discloses,
 - wherein the information regarding the web page includes at least one of:
 keywords of the web page; paragraph headings of the web page; links on the
 web page to other web pages. (Brown, col.2, lines 15-21; col.6, lines 20-27;
 col.9, lines 2-11; Brown teaches of positive preferences (or criteria) which may
 relate to content, key words, date of creation, author, etc. The web pages
 associated with the links from the first web page are parsed for these criteria and
 the results are presented to the user)
 - wherein the information regarding the web page includes at least information regarding whether the link is broken. (Brown, col.8, lines 22-37)
 - further comprising disabling the link in response to determining that the web page includes content that a user is not allowed to view. (Brown, col.8, lines 48-54)
- 8. With regard to *claims 15-21 and 24*, Brown reference discloses,

Art Unit: 2143

wherein fetching the information regarding the web page to which each link
points comprises retrieving the information from a server on which the
information is stored. (Brown, col.2, lines 15-17; col.6, lines 21-27; Brown
teaches of parsing the retrieved web page for a set of links to other web pages
and retrieving those web pages from their respective locations)

wherein fetching the information regarding the web page to which each link
points comprises retrieving the information from a local cache in which the
information is stored. (Brown, col.11, lines 45-55; Brown teaches of retrieving the
information from the cache)

Conclusion

- 9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
 - Brown et al. (US006356908B1)
 - Graham (US006647534B1)
 - Bates et al. (US006557015B1)
- 10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Application/Control Number: 09/609,001

Art Unit: 2143

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the

Page 6

advisory action. In no event, however, will the statutory period for reply expire later than

SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner 11.

should be directed to Thomas Duong whose telephone number is 703/305-1886. The

examiner can normally be reached on M-F 7:30AM - 4:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David A Wiley can be reached on 703/308-5221. The fax phone numbers for

the organization where this application or proceeding is assigned are 703/872-9306 for

regular communications and 703/872-9306 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is 703/305-3900.
